### Council M. D. Battle River Holds Busy Session at Irma

#### Meeting Proves Councillors Have Eye to Conserve Purse —Committee Appointed to Meet With Wainwright Hospital Officials

The council of the Municipal District of Battle River, No. 423, met in the Municipal office at Irma, Alberta, on Thursday, September 8th, with Messrs. Smallwood, Vesey, Burton, Archibald and Blakeley present. The Reeve presided.

Moved by Mr. Burton that the minutes of meeting dated August 11, 1932, be accepted as read. Carried.

Moved by Mr. Blakeley that Mr. Vesey be appointed deputy reeve for the next six months. Carried.

Moved by Mr. Burton that Mr. Blakeley's report re J. Malner be accepted. Carried.

Moved by Mr. Smallwood that the Secretary write the division commissioner, file 69050, Winnipeg, re J. Malner, giving the substance of the committee report. Carried.

Moved by Mr. Blakeley that the letter from T. P. Richmond and the signed petition re polling place for Division 3 be received and that this matter be left entirely with the councillor of that division. Carried.

Moved by Mr. Blakeley that the report of Mr. Burton re Jerome family be accepted. Carried.

Moved by Mr. Vesey that the report of Mr. Smallwood re Dr. McLeod be accepted and that the secretary write the Royal Alexandra Hospital that this party is not an indigent and that he is quite capable of discharging his obligations to the said hospital. Carried.

Moved by Mr. Vesey that Secretary write J. Muir, N.E. 29-46-7-W4th, that this council accept the arrangements made re the remaining taxes on said land. Carried.

Moved by Mr. Burton that the secretary be instructed to make seizures on all crown lands for taxes where arrangements for payment has not been made. Carried.

Moved by Mr. Smallwood that the secretary again write the owner of N.W. 28-45-9-W4th regarding payment of taxes and if this matter is not satisfactory same to be placed in the hands of Mr. Purvis for collection. Carried.

Moved by Mr. Smallwood that the secretary write the superintendent of child welfare re Jerome that this municipality are issuing relief to Mrs. Jerome and family and do not wish to pass this case for mothers' allowance until such times as the council receive evidence of unreasonable conditions of her husband. Carried.

Moved by Mr. Vesey that council approve of letter sent to St. Anne's Hospital re E. M. Reed dated August 23, 1932. Carried.

Moved by Mr. Archibald that secretary be instructed to have all matters re S.E. 16-45-9-W4th placed before the council at October meeting. Carried.

Moved by Mr. Smallwood that the secretary reply to letter of August 9

### Kinsella District Has Many Comings and Goings

Kinsella, September 14, 1932. Mrs. E. C. Williams and daughter, Dorothy, have been spending a few days in Edmonton. Mrs. P. J. Wanganess and her sister Mrs. Carl Smogard, left on Monday evening for Boise City, Idaho, to attend the funeral of their sister.

Mr. Frank Williams was taken to the Viking hospital on Saturday. We hope for a speedy recovery.

Miss J. Neale entertained her parents and brother, from Vermilion over the week-end.

Mr. and Mrs. Bob Arkinstall and family, of Edmonton, are spending some time with the former's parents.

Miss Ella McCormack visited Miss La Rue at Greenfield on Sunday.

Mr. E. Jewell spent Sunday with his parents, near Lougheed.

### Flower Service Proved To Be Huge Success

The flower service last Sunday proved to be most helpful as well as enjoyable. We desire to express our thanks to all those who brought flowers, and especially to Miss Flewelling who arranged the display. The variety and the beauty of the blooms made a beautiful sight and helped to enforce the timely truths that Rev. W. J. Huston imparted.

The services next Sunday will be at Albert, Almer Mater, and Irma. The sermon topic is "The Meaning of the Law of Love."

The Rev. J. R. Geeson was away last Wednesday and Thursday, attending Presbytery meetings at Tofteld.

### Here's Timely News for Very Cold Days to Come

J. C. McFarland & Co. are holding a sale of sweaters that will interest the thrifty shopper. They are of the well-known "Monarch" brand and will appeal to those folks who are in need of winter warmth. The prices are such as to meet the needs of the thrifty shopper.

### Mackenzie King Will Be at Edmonton October 21

#### Dominion Liberal Leader Will Address Convention in Macdonald Hall

Right Hon. W. L. Mackenzie King, leader of the Dominion opposition, will be in Edmonton on the evening of October 21 and will address the annual convention of the Alberta Liberal Association. It was disclosed at a meeting of the executive of the Edmonton Liberal Association Friday evening in the Macdonald.

The meeting, under chairmanship of George Buchanan discussed arrangements for the convention which will be held in Edmonton, October 21. The provincial executive, it was decided, will meet October 20. Three aims have been set for the meeting: naming of a provincial leader, establishment of a provincial Liberal party and perfection of the organization throughout the province.

Already the formation of the Great Lakes shipping pool has obtained results. The rates for carrying grain by water from the head of the lakes to Montreal have been increased from the low point of 3 1/2 cents a bushel to 5 1/4 cents a bushel.

Div. 5. 3.95  
P. O'Reilly, labor, Div. 6. 5.00  
Richardson Machy. Co., Repairs, 34.80

Moved by Mr. Vesey that the report of the cemetery committee be accepted and that the treasurer be empowered to issue cheque for \$137.00 as per contract entered into with Edwin Hufman when said party presents his account.

Moved by Mr. Archibald that a committee be appointed to wait on the Board of Trustees of the Wainwright Municipal Hospital regarding matters pertaining to Municipal business and that the secretary find out the date of the next board meeting. Carried.

Moved by Mr. Blakeley that Mr. Smallwood and Mr. Vesey be appointed on the committee to meet the Board of Wainwright Municipal Hospital. Carried.

Moved by Mr. Blakeley that the secretary order 400 feet of snow fence for use in division 2. Carried.

Moved by Mr. Vesey that council adjourn. Carried.

### Many Prizes to Be Given Away For Dancing, at Viking

#### Favors to Be Given Away Will Cause Community Hall to Represent Miniature Mardi Gras— Snappiest of Music for Dancers

"First couple get up and get out in the middle, And shake your feet to the tune of the fiddle—"

O boy! You'll sure get a chance to shake 'em on the night of Monday, October 10, at the big novelty: barn dance the local Brother Bills are going to stage, and as a shin-dig par excellence it's going to be an eclipse of the moon that night. As the world knows, when these benevolent Elks cut loose from the traces there's zipp and sing from this to finish.

The venue for this big gala affair is none other than that monument to their activity for the greatest good to the greatest number—the Viking Elk's Community Hall, which, with balloons, paper hats in a myriad of colors, horns, streamers and confetti, will present a small replica of the New Orleans' Mardi Gras. No kidding, these 'ere Elks don't do a thing by halves—first class all the way.

And do your feet crave snappy music? . . . do they? They do, eh? Well, bring them along to this pot pourri of dance, music and frolic of fun. An orchestra whose reputation is second to none for catering to these affairs is being negotiated with and, but for a minor detail or two, are as good as engaged.

### Viking

Mrs. R. J. Darrah, Maxine and Douglas, arrived in Viking on Monday from Vancouver, where they have been in residence. Another son, Bobby, is remaining at the Pacific Coast city. Mr. and Mrs. Darrah will be at home in the Mrs. B. Hilliker house.

Manager Coupe, of the Two Hills branch of the Bank of Montreal, visited with W. D. Murdoch while on a motor tour through this part of the country last week.

Mr. and Mrs. H. M. Hilliker, Miss Mary Hilliker and Miss Phyllis Collier motored to Edmonton Tuesday.

McAthey & Sons report an activity in car sales during the past week: H. Boquist and Clyde Scott secured reconditioned cars—both of the Essex manufacture, while Thomas Dickout of Kinsella purchased a Fordor tractor.

W. A. Bayley, of the National Trusts Co., Edmonton, was, with private in the Fitzmaurice & Kelsey building.

Miss Mae Sheets, daughter of Dave Sheets, who has been teaching school at Vegreville, has been seriously ill the past week and is at the Vegreville hospital, since taken ill with 'flu. Her sister, Miss Dorothy Sheets, is filling her place in the school. A host of friends in this district are hoping she will regain her health.

The Camrose Liberal Association had to postpone their convention to select a candidate to contest the election in the Camrose constituency for the seat made vacant through the death of the Hon. Vernon Smith. The convention will be held on Thursday evening of this week instead.

The publisher of this paper is the owner of a new Ford V-8, purchased from the local dealers, McAthey & Sons.

District court will be held in Viking on September 22. Judge Dubuc usually presides at this judicial session and it is anticipated he will be present at the forthcoming sitting.

Mr. and Mrs. L. G. Taylor were visitors to Edmonton for a few days, leaving Tuesday.

Miss Violet Loades has accepted a position on the staff of Shoppe-Rite Stores Ltd.

A pleasure to report H. Halberg is convalescent after an attack of 'flu. S. A. Shandro, representative of the C.P.R. steamship passenger department, was a caller in town this week. Station agent, Roy Whyte, of Irma, paid a social call on his friend, J. L. Dadds, here over the week end.

Increase your egg profits. You can make big profits from your hens this winter by building a hen house that will keep them warm, healthy and vigorous. Call at the Alberta Lumber Co. and let them give you prices and estimates.

"Is this a first-class restaurant?" asked a pompous traveller entering a local eating house last week. "Yes, but if you'll sit over in that darkened booth in the corner we'll serve you," the proprietor replied.

## Initiative Wins.

When Marshal Foch was given command of the French army during the World War, one of the first things he is reported to have said was: "To h—l with history and principles! What is the problem?" Though Foch was perhaps the world's greatest student of military strategy, he was no slave to it. He tackled each problem with initiative and vim. This method won for Foch.

The Review of Reviews magazine declares that a study of recent reports will show that those industrial organizations that exerted wise and sustained vim and initiative profited more than those which stood pat watchfully waiting, or those which imitated others. It points out that the larger the business, the more it tends to become standardized. System and routine often kill initiative and stifle progress. This explains in part why a small organization will so often place a new, out-of-the-ordinary product upon the market, something for which a real need has long existed but which no one previously appeared to have recognized.

Safety glass, now used so widely for windshields and bank cages, is the result of alertness and initiative. Non-shattering glass was discovered accidentally by a French chemist who knocked over a test-tube that had been used for months. Stooping to pick up the pieces, he discovered that the paste substance in the tube held the broken glass intact. Mentally alert, he obtained a mixture of nitro-cellulose

and acetone. Experiments followed and safety glass was the result.

Rear Admiral David Watson Taylor is credited for having been able to reduce the coal bill of the United States Navy by one-half, utilizing the bow wave for ship propulsion. A biscuit company making money only erratically saw its sales rise enormously by fashioning cookies in the shape of dogs, animals, and similar enticing forms. A manufacturer of towels was able to build up sales enormously by introducing towels in colors to harmonize with the bathroom tiles. Children's towels were created. Complete ensembles were worked out—towels, washcloths, bathmats. That plant is reported to have maintained full capacity throughout the depression.

Foods have undergone marked development because of research followed by initiative. It was discovered that tomato juice is rich in vitamins A, B, and C, and in three years, tomato juice has caught the public's fancy. Progressive manufacturers of canning machinery were alert to their opportunity. In two years the sales of canned tomato juice have a gain of 629 per cent., and bottled 177 per cent.

Today there is no paucity of opportunities. But there's paucity of vision, initiative, and courage to capitalize them. As Charles Kettering, vice-president in charge of research, General Motors Corporation, says, "Business will come back when we get products that people want to buy. If one-tenth of the energy was spent in getting such products instead of stirring up the mud, we would get along better."

The task of leaders is to lead. There is not an industry or a line of manufacture but affords unappreciated opportunity for initiative. Today, as during the days of the World War, executives might think to advantage as Marshal Foch was thinking when he said, "To hell with history and principles! What is the problem?"

## Britain Is Providing

## Underground Airports

Planes Will Use Inclines To Come To Surface

Underground airports are to be provided for the British Air forces. This decision was made after it was found that no camouflage could hide the hangars from the powerful lenses now being used in military cameras. The new airbases will be at a minimum depth of thirty feet. There will be inclines for planes to come to the surface and take off.

It is good to have money and the things money can buy, but it is good, too, to check up once in a while, and make sure you haven't lost the things money can't buy.

Try Lydia E. Pinkham's Vegetable Compound

**Felt Terribly Nervous**  
Fagged out... always melancholy and blue. She should take Lydia E. Pinkham's Vegetable Compound. Its tonic action builds up the system. Try it.

W. N. U. 1934

## Grow Seedless Grapefruit

Secret Was Originally Discovered By South African Planter

South African planters have mastered the secret of growing seedless grapefruit, and bulk supplies are now beginning to be exported. A careless planter discovered the secret originally. His blade came in contact with a grapefruit root and a small tree, growing from the incision, produced sterile (seedless) grapefruit. South African growers experimented and found that similar fruit could be produced only under special conditions.

Persian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

A new camphor factory in Japan is to make intensive studies of the economic and scientific side of the camphor industry.

"Muskrats, introduced into Great Britain in recent years for fur breeding, are now pronounced a menace, due to their burrowing habits.

## Men's Greatest Invention

Hammer Is More Necessary Than Any Tool Made

If you ask half a dozen people what they consider to be the greatest invention ever made, the majority will suggest such things as the steam engine, the dynamo, or the electric telegraph. But these are only the results of a much earlier and far more important discovery. The earliest and greatest invention ever made by man was the hammer.

You cannot undertake any piece of constructional work without a hammer. Though you may not actually use it, it must have been employed in making the tools with which you do the work. The hammer was the first tool which enabled man to multiply his strength; to do something which was impossible with his bare hands.

It was probably invented by a remote ancestor who had the inspiration to use a stone for cracking the shell of an oyster or whelk. The earliest hammers had no handle. They were merely conveniently shaped stones held in the palm of the hand.

Fasten such a stone to a handle and you have a much more effective tool. Sharpen its business end to an edge by chipping off flakes, and it becomes a stone axe. The formation of an edge on the earliest flint tools could be done only by means of a hammer. The hammer thus gave birth to both the axe and the adze, the earliest of cutting tools.

From the adze and the chisel to the saw is but a step. The drill is simply a small chisel. It was first fixed to a round shaft and rotated by the palms of the hands; later, primitive man invented the bow and string method of turning it. The bow and string drill is still in use in certain trades.

## Medical Science Finds

## Chinese Doctors Right

Experiments Prove "Pin-Pick" Cure Has Its Merits

The Chinese doctors have one method of curing their patients which has always bewildered and amused the western world. If a man is ill, they stick a pin into him. If not a pin, at any rate, a needle or a copper wire filed to a point. They do just that, and nothing more. No drugs are used.

In a good many ailments this cure has nearly always been successful, and westerners put it down to faith curing—the powers of suggestion. Now, after many centuries, medical science has decided there is something in it, and the Chinese experts are asked to demonstrate their methods.

Pricking a patient with a needle in the right spot has a certain effect on nerve centres. Experiments have shown that it causes a cessation of violent neuralgia, or sciatica; it has given temporary relief from asthma and has proved helpful in various forms of stomach or internal disorders, giving instant relief.

Research into acupuncture—"pin-prick cure"—has only just started, but it is quite likely that in a few years it will be largely used instead of pain-soothing drugs.

## Stock Exchange Seats Up

Estimated Value Shows Big Increase In Short Time

With the recent sale of a seat on the New York Stock Exchange for \$120,000 the value of the 3,375 seats went up by 23 per cent. The estimated worth of the seats is now valued at \$150,000,000, an increase of \$31,250,000 over the total of a week before.

The traders in Wall Street are preparing to pick up where they left off a few years ago. It is getting on for three years since the crash on October 29, 1929, when 16,400,000 shares changed hands.

People have been hoarding their money for a long time. They are beginning to feel the itch to spend. The stock exchange is one of the barometers, even if it is a place where many lose their savings. And the exchange is girding itself for a pick up in its business—Border Cities Star.

## Higher Education Popular

There were 57,294 students in the twenty-three universities in Canada during 1931, and 25,137 attended the 101 colleges in the Dominion. Of the net total of individual students at both universities and colleges there were 46,354 males and 25,798 females who followed the higher education. The ladies secured 35.7 per cent. of the diplomas, licenses and degrees granted.

Visitor says American schoolgirls are too fond of gum. Part of their chawing, no doubt.

## Keep that drain clear...

**FREE BOOKLET:** The Gillett's Lye Booklet tells many ways to make all your cleaning easier. Gives complete instructions for soap making, for tree spraying, disinfecting, and other uses on the farm. Write to Standard Brands Limited, Fraser Ave., Liberty Street, Toronto, Ontario.

## GILLETT'S LYE

Never dissolve lye in hot water. The action of the lye itself boils the water.

EATS DIRT

this easy way

*Gillett's Lye dissolves clogging grease and never harms enamel*

**DON'T** run up a plumber's bill every time your drain pipes clog. Fix them yourself... this easy, workless way.

Just sprinkle Gillett's Pure Flake Lye down your drains and toilet bowls each week. Use it full strength, for Gillett's Pure Flake Lye will not in any way harm the finish of enamelled sinks or bathtubs.

Grease and dirt dissolve like magic. Germs are killed. Odors banished. Your drains run free and clear. And... there's no plumber's bill afterwards!

Tell your grocer it's Gillett's Pure Flake Lye you want. This powerful cleanser and disinfectant saves hours of scrubbing. Try a tin.

## Motion Without Motive

Chinese Description Of Western Civilization Fits Speed Maniac

Judging by the number of convictions in recent weeks, the Ontario authorities are in earnest in their determination to make the highways of that Province safe for the average motorist.

There is rarely any intelligent reason for driving a car beyond a reasonable speed. Occasionally, in an emergency, fast driving may be justified. For the most part it is merely craziness.

One of the most frequent causes of fast driving is the desire merely to pass some one on the way to nowhere particular. Which gives point to the Chinese observer's description of Western civilization as "motion without motive." The speed maniac might just as well be driving around in an enclosed motor speedway as on the public highways. Perhaps something of the kind may eventually be provided for those infected with the speed virus.—Winnipeg Tribune.

## Buys His Home Village

After an absence of more than 40 years, William McGregor, who left his home in Lathernwheel, Calthness, Scotland, to seek his fortune in Australia, has returned to become the owner of his native village. As a boy he was employed in herding cows. Director of several Australian companies, he came back to visit his sister, Miss Jessie McGregor, who still lives in the cottage where they were born. He bought the village when it was placed on the market recently. It has about 120 inhabitants.

**Drives Asthma Before It.** The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the relief-giving remedy shows how actual and positive is the success it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

## His Voice

Newedd was showing an office friend over the young couple's new house. "All this luxurious furniture is my wife's idea, you know," he explained. The friend nodded approvingly. "Very nice, I'm sure," he replied; "but surely you had a voice in the matter."

"Yes, the invoice," said the young husband.

Errolson taken 21 times as much plant food from the field and pastures of America as is removed by harvested crops.

**Bad Constipation And Sick Headaches Ended By Vegetable Pills**

Formerly a wreck from Constipation, Sick Headaches and Indigestion, Mr. V. H. writes: "It was a red-letter day for me when a friend recommended Carter's Little Liver Pills. Results have been marvellous." Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are without equal for correcting Acidity, Bilioousness, Poor Complexion and Indigestion. 25c. & 75c. red package. Ask for Carter's by NAME.

## Mine Taken Over By Workers

Interesting Experiment Is Under Way In Nova Scotia

For a quarter of a century the people of Inverness, N.S., have been working for somebody else. Now they will be in business for themselves, directing and operating the coal mine that is the only industry in the town, and marketing its products.

Their co-operative plan, approved recently by the government of Nova Scotia, is expected to banish the threat, long dreaded by the town's 3,000 inhabitants, that the mine would be closed.

Under the agreement with the government, operation and control of the mine has been transferred to a new company, the Inverness Coal Co-operative Company, Limited, members of which are to be miners employed in that mine and taxpayers of Inverness.

## Canadian Radio Programme

Broadcast From 'Plane

Contact Made With Station From Height Of 3,000 Feet

An advertising stunt that proved of some scientific importance was accomplished here recently when Arthur Dupont, local radio announcer, and Sydney M. Nesbitt, aeroplane club official, successfully established contact with a Montreal radio station while flying 3,000 feet over the city. Both men gave short addresses which were clearly received by many wireless fans. It was believed to be the first Canadian radio program broadcast from an aeroplane, though short addresses were broadcast from the airship R-100 over Ottawa in 1930.

**Worms in children work havoc.** These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

## New Paint Seems Uncanny

How not a kettle is at any moment can be told by the color of a paint which has just been invented. A kettle painted with the new material, which is a mixture of salts of mercury and copper, looks bright red when cold, but as it warms up above 140 degrees it becomes maroon colored. At 20 degrees higher it takes on a dull chocolate hue, and at boiling point it is quite black. Cooling brings its color back.

**Mother Graves' Worm Exterminator** will drive worms from the system without injury to the child, because its action, while fully effective is mild.

"Too bad about Tom and the girl he's engaged too. Neither one of them is good enough for the other." "Where did you get that idea?" "I've been talking the matter over with both families."

About one-half the world's lepers are in China.

Rice accounts for about 80 per cent. of Siam's exports.

## Feeder Purchase Policy

Designed To Encourage Winter Feeding Of Cattle and Lambs

Renewal of the Feeder Purchase Policy designed to encourage the winter feeding of cattle and lambs of suitable type and quality is announced by the Hon. Robert Weir, Federal Minister of Agriculture. Under the terms of this policy, broadly put, the Federal Department will pay the reasonable travelling expenses of a farmer or his agent to the stockyard point of purchase, the feeder sales, or nearest station to range point at which feeder stock is purchased. To secure the benefits of the policy at least one car of stock (20 head of cattle or 40 lambs, or a combined car, figured on 2 lambs as the equivalent of one beef animal) must be purchased. Stock purchased is subject to approval as to type and suitability by the official representative of the Dominion Live Stock Branch serving the point of purchase. Special provision has been made to extend the benefits of the policy respectively to farmers of Eastern Canada, of the Prairie Provinces, and of British Columbia. Complete details and information about the policy and the benefits can be secured by writing the nearest stockyard agent of the Dominion Live Stock Branch, or direct to R. S. Hamer, Chief, Cattle Division, Dominion Live Stock Branch, Ottawa. The policy is operative for a period of five months from and after August 1, 1932.

## Ontario Relief Organization

Public Welfare Board For Each Municipality To Handle Direct Relief

Organization of a public welfare board for each municipality to administer direct relief is recommended in the report of the advisory committee on direct relief to the Ontario Government, and announced by Hon. Dr. J. D. Monteith, Minister of Public Works and Labor. Where possible, it is also suggested that an association or league of organizations interested in public welfare should be organized to act in an advisory capacity and arrange for the conduct of campaigns in connection with the raising of funds, etc.

Housekeeping accounts on an Ohio farm indicate that a farm family of five people spends about the same money for food that a bachelor does in the city.

Eggs are better than a spring tonic. In view of the iron, vitamins and protein they contain, is the advice of the bureau of economics.

## First Results Obtained In Scientific Attack On Weeds In The Prairie Provinces

Weeds stand pre-eminent among the causes of agricultural losses in Canada and oddly enough they have been the last of the pests of agriculture to occupy the serious attention of scientific investigators, states a report entitled, "Weed Survey of the Prairie Provinces," issued as the first publication of the National Research Council's Associate Committee on Weed Control.

In a popular account, entitled, "Weeds and Their Control," prepared under the auspices of the Committee for general distribution and issued simultaneously, it is declared that the worst weeds are widely adaptable as to soil and climate and even recently settled areas such as the Peace River district are being gradually invaded and will eventually be overrun unless more effective defensive measures are adopted.

An estimate of the losses sustained is made:

"The committee's experiments have shown the wheat yield of weedy plots to be reduced by 19 to 44 per cent. Taking 18 per cent. as a conservative estimate of the crop loss due to weeds in the prairie provinces, this would run, at current prices for wheat, oats and barley, to well over forty million dollars for an average crop. To this must be added the high cost of the additional cultivation done to keep weeds within bounds, the cost of threshing, handling and shipping to Port Arthur and Fort William annually the equivalent of 96 train loads of 60 cars each of weed seeds, the direct cost of dockage, and many other kinds of losses due to weeds."

Dr. Robert Newton, Director of the Division of Biology and Agriculture, National Research Laboratories, and the chairman of the Committee, states in a foreword that cultural methods of control must be mainly depended upon, since the application of chemical herbicides is practicable only for small areas. Dr. Newton says:

"For most of the weeds fairly successful cultural methods have been developed, and we may expect great improvement along this line when we have available the results of the careful studies of the growth habits of weeds now being carried on by members of the committee. Previous progress has been achieved by the method of trial and error; now it can be based on accurate knowledge of the effect of different treatments on the development of various weeds. It would appear that general control may in future be achieved in proportion as educational campaigns are successful in inducing farmers to large to co-operate, in the application of the best methods. Community effort is essential, as with many weeds reinfestation from farm to farm takes place readily.

"Weed inspection systems might be improved by centralizing with each province the responsibility for both the appointment and supervision of inspectors, and by extending the legislation to require the cleaning of the seed. Municipal appointees are often poorly qualified and ineffective. The educational aspect of the work should be emphasized.

"This report goes out as the first publication of the Associate Committee on Weed Control. A second, dealing in a popular way with weed control, in the light of the new information already available to the committee, is being published simultaneously. Other papers, based on the large volume of investigation work under way, will follow in due course. It is confidently expected that these will be recognized as important contributions to the solution of a problem of the first importance to agriculture."

G. P. McRostie, Professor of Agronomy, University of Manitoba; L. E. Kirk, Dominion Agrostologist, Dominion Experimental Farms, Ottawa; George Godel, W. G. Smith and J. M. Manson, weed investigators of the Saskatchewan Department of Agriculture, the Alberta Department of Agriculture, and the Associate Committee on Weed Control respectively, are the joint authors of the report entitled, "Weeds and Their Control." The origin of the Committee is described in these terms:

"No such body of knowledge exists about weeds as about animal and

plant diseases and insects, and until very recently no adequate investigations were under way to obtain such knowledge.

"In recent years the exploitation by commercial firms of various chemicals as herbicides has provoked a renewed interest in this old, but never widely used, method of weed control. The National Research Council in response to requests from numerous organizations, called a conference in Edmonton in the fall of 1929, on the destruction of weeds by means of chemicals. At this conference it became clear that the whole field of weed control was urgently in need of investigation. The Council then appointed an Associate Committee on Weed Control, with representatives of the chief institutions concerned in the general problem, and the committee undertook the task of developing a co-ordinated programme covering all aspects of weed control investigations.

"Having regard to the practicability of organizing the work, it was agreed that the initial activities should have more particular reference to the prairie provinces. Mr. J. M. Manson, of the University of Alberta, was engaged by the committee to make a reconnaissance survey of this area, in order that the committee might have a better picture of the situation with which it was confronted. The results of the survey are set forth in this report."

### Winnipeg Newspaper Union

438  
VARIOUS POINTS ABOUT THIS SMART DRESS HAVE BEEN THOUGHT OUT FOR MATRONS

For instance, the one-sided softly falling rever cuts the bodice breadth. Still more helpful perhaps is the unbroken line, created by the partial belt arrangement, which gives height to the figure. The inset panel at the centre-front, also does its bit toward slenderness.

Printed crepe silk is a lovely medium. The vestee is lace. Style No. 438 is designed for sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 4 1/2 yards of 39-inch, with 3/4 yard of 10-inch lace.

Cottons may also be used in sheer batiste or lacy novelty weaves. Sheer woolsens are also suitable.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

### PRACTISING FOR RECORD

A. Couzens, well-known English walker, who is pictured above in training for his forthcoming attempt to walk 200 miles in 48 hours.

### Quit Professional Careers

Noted Swimmers Reported As Intending To Give Up Quest For Marathon Honors

The Toronto Daily Star says that Margaret Ravioli, Philadelphia mermaid who won the \$3,000 first prize in the Canadian National Exhibition women's marathon swim, and George Young, noted Canadian marathon swimmer, will quit professional swimming after their marriage.

The Star quoted an unnamed "authority" in Johnny Walker's training camp as saying Young and his bride-to-be would settle down at a country place near Bracebridge, Ont.

### Ericsen Memorial

#### Unveiled In Iceland

American Minister To Denmark Officially At Ceremony  
Frederick W. B. Coleman, American Minister to Denmark, unveiled at Reykjavik, Iceland, a statue of Leif Ericsen, the Icelandic hero, on his way to Greenland from Norway in the year 1,000, discovered America. The statue was presented to Iceland by the American people in 1930. Ericsen is reputed to have touched Labrador, and possibly Newfoundland and Nova Scotia, in his voyage through the Arctic seas.

### Model Coach Competition

Edmonton Youth Captures Coveted Prize For Two Years In Succession

Lawrence Dubert of Edmonton captured both the grand championship and the senior championship trophies in the annual competition of the Model Aircraft League of Canada which ended in Winnipeg recently.

It was the second year the youthful model builder came out on top of the list of competitors. The junior championship went to Joe Purvis, of Toronto.

Victor R. Hill of Vancouver, placed third in the senior scale model competition.

### A Floating Museum

Admiral Byrd's Whaler Houses Exhibits Gathered At South Pole

Admiral Byrd's whaler, "The City of New York" on which he sailed to the Antarctic on his trip to the South Pole is berthed at Chicago in the lagoon across from the Hall of Science in the Century of Progress Exposition after a trip through the Great Lakes.

The deck has been kept intact with the admiral's quarters untouched, but the rest of the boat has been made into a museum. Members of the expedition still on the ship act as guides showing visitors to the fair, the Adelle penguins, Emperor penguins and other exhibits gathered at the Pole.

### Regimental Affiliations

Ontario Militia Units Form Fraternal Alliance With Antipodes

Reaching out beyond the traditional regimental affiliations between units of the Canadian militia and the British regular army, the Perth regiment, with headquarters at Stratford, Ont., have established a fraternal alliance with both Australia and New Zealand. The department of national defence announced royal approval of affiliation with the 26th Battalion, Australian military forces, and the Otago regiment of New Zealand.

### Receive Gold Medal

President Von Hindenburg Marks the Centenary

J. L. Garvin, editor of the London Sunday Observer, and a distinguished student of Goethe, is among 41 recipients of the gold medal bestowed by President von Hindenburg in connection with the celebration of the Goethe centenary at Frankfurt-am-Main.

Other recipients of the medal include Premier Benito Mussolini, of Italy, and Premier Edouard Herriot, of France.

### STAND OF DOUGLAS FIRS

Stand of Douglas Fir on Vancouver Island, British Columbia. There are 127 billion feet of this timber growing on Vancouver Island.

When somebody said that trees were a thousand friends in one to man they did not exaggerate. It is for this reason that Mr. Frank D. Barnjum is carrying on a Dominion-wide crusade for the conservation of our Canadian forests. The above picture shows a handful of Douglas firs near Victoria. There are estimated to be over 120 billion feet of this timber growing on Vancouver Island. Mr. Barnjum has already bought a tract which is to be preserved for the public in his fight for the conservation of our timber.

Mr. Barnjum says: "Trees protect and beautify our farms and gardens, protect our drinking water supplies, our water powers, fish, game and wildlife; provide lumber and fuel, pulp and paper, labor and transportation, taxes and dividends; are our greatest

promoter of health, beautify our city streets, protect our highways and check the ever growing menace of dust storms and hail, provide shelter from the scorching days of sun in summer and the icy blasts of winter; prevent cyclones, damaging floods, erosion and loss of fertility of the soil; provide recreation and a tourist industry which, without cost to the country, ranks second in its importance, hence, including lumber and pulp, our four greatest industries are absolutely dependent upon our forests, and in fact nothing that we use or eat or wear can be produced, manufactured or transported without the aid of wood."

"No other element of the universe has so many uses (4,500 in number), or is of such vital importance as trees."

## Vancouver Now Claims To Be The Largest Grain Shipping Port In The Dominion

### One-Third World's Sheep Within Empire

British Dominions Produce Large Portion Of New Wool

Nearly one-half of the world's raw wool and over two-thirds of the wool entering world trade, are produced within the British Empire. Exports of home-grown wool from Canada have developed rapidly since the war, these exports now amounting to a yearly average of 7,000,000 pounds, about 40 per cent of the entire Canadian production.

The world's sheep population is estimated at nearly eight hundred million head, of which about one-third are in the British Empire. They produce between 3,500 to 4,000 million pounds of wool yearly, and of this amount about 1,500 million pounds, including much of the best wool, comes from the Commonwealth of Australia, South Africa and New Zealand. Outside the Empire the important producing areas are the South American countries, the United States and Russia. Of these territories only South America has a surplus for export.

### Belgian Memorial Stamps

Dedicated To Infantrymen Who Fell On West Front

Special postage stamps have been issued in Belgium, dedicated to the glory of the Belgian infantrymen, who fought and fell on the Yser, at Nieupoort, Dixmude, and other sectors of the Western front.

The design common to both of the two denominations consists of a giant figure of an infantry soldier clad in great-coat, steel casque, and full equipment, striding amidst a blaze of light through the ruins of a village.

A total of 40,000 pairs was printed, and the stamps were sold at a premium upon face value in aid of the erection of a national monument in Brussels. Their values and colors are: 75 centimes (blue, 35, 25c) red, and 1 franc (plus 4c, 25c) blue. They make a notable addition to the many issues of stamps associated with the world war and its aftermath.

### Thousands Use Plane

#### For Channel Crossing

Demand Is Greater Than Accommodation According To Report

During June 4,311 travellers flew by Imperial Airways between London and Paris, as compared with 2,206 in the corresponding month of 1931. The increase is notable and it is reported that the demand is greater than the accommodation. When Louis Bleriot, the French aviator, made his pioneer flight across the English Channel, from Calais to Dover, a distance of 21 miles, in 37 minutes, on July 25, 1909, he had visions of the future of flying, but he could hardly have imagined that the science would make such tremendous progress in less than a quarter of a century. Montreal Gazette.

### New Type Of Building

American Laboratory Constructed On Lines Of Thermos Bottle

A big laboratory recently built in America has been made on the lines of the thermos flask. Its walls are constructed to prevent heat from leaking either in or out. It is built entirely of concrete, with not a single window. Outside is a thick coating of cork with an outer layer of bricks. This acts as a heat insulator and maintains an unaltered temperature of 70 degrees. It would take a month in the depths of the severest winter for it to fall to 69 degrees. The purpose of the laboratory is to study the light given out by atoms at certain temperatures.

### Stained Glass Windows

#### For French Chapel

Carry Figures Of Soldiers Instead Of Biblical Subjects

Three stained glass windows, destined for the rebuilt Belleau Chapel in France, which portray the historic ties that bind the allies and France, recently were exhibited in Boston.

The figures of an allied soldier and a French poilu, Lafayette and Washington, Pere Marquette and Champlain, occupy the places usually reserved for Biblical subjects.

Sir George Williams was the founder of the Young Men's Christian Association.

The surprising growth of Vancouver's grain trade during the past ten years was summarized and clearly illustrated by R. C. Milroy, retiring president of the Grain Exchange division of the Vancouver Merchants' Exchange. The occasion was the annual meeting of the division.

For the fourth successive year Vancouver has exceeded Montreal in exports of Canadian wheat. Then years ago Vancouver exported 8,000,000 bushels, while Montreal shipped 51,000,000 bushels of Canadian wheat. Last crop year, 1931-32, Vancouver exported more than 75,000,000 bushels of wheat and Montreal 54,500,000.

Ten years ago Vancouver's elevator accommodation was 1,500,000 bushels. Today, including additions now under construction, the port has the largest ocean grain elevator accommodation in the world, with 17,728,000 bushels. Montreal is second with 15,162,000 bushels.

In 1921-22 Vancouver exported 6 per cent of the Canadian wheat crop. In 1931-32 this port exported 44 per cent of the Canadian wheat crop. Montreal and other eastern Canadian ports 37 per cent, and United States ports 19 per cent.

Ten years ago Vancouver's oats export was 250,000 bushels; last year it was 7,000,000 bushels.

Ten years ago this port's grain export to Europe were 4,500,000 bushels; last year it totalled 71,000,000 bushels.

Last year's export from Vancouver was 84,000,000 bushels of all grains, second highest movement in history of the port. Records were made in quantity shipped to Europe, in movement of oats, in total percentage of Canadian crop exported.

### Something New For

#### Chicago World's Fair

Various Stages Of Manufacturing Taking Place Of Completed Exhibits

Chicago World's Fair in 1933 will be built on the theme that the exhibit of previous exhibitions is out of vogue. Every exhibit will be in "motion." Instead of completed products on display, the public will be shown the various stages of the manufacturing. Because of this policy there will be thousands of employees working on regular shifts in temporary factories during the six months period of the Fair. It is expected that 30,000 persons will be on the payrolls of the various concessionaires, exhibitors and educational displays.

### Fresh Water Leviathans

Larger Boats Make Faster Time On Lake Trips

In only a few years over the century Welland locks have grown from 110 feet long to 859 feet, because Canadian business requires to handle its boats that have grown from 100 feet to 850 feet. Moreover these freshwater leviathans that we have made to carry our wheat and ores can no longer spare the time to dawdle away 25 hours between Erie and Ontario as they have had to do. Speed goes with size nowadays and our newest and biggest carriers with their 25,000 tons under hatches can pass from lake to lake and clamber up or down the cliffs in a third of the time. Montreal Star.

### Dog Accepts Challenge

Careless with three banknotes Miss Peggy Tyson of Winchmore Hill, England, waved them playfully before her pet terrier. The dog accepted the challenge and chewed up the money. Miss Tyson was able to collect and match enough of the pieces to have the bills cashed at the local post office.

Prices of agricultural products in Chile are increasing.

"Lend me five pounds."  
"When I return from Paris."  
"You are going to Paris?"  
"No." - Gutierrez, Madrid.

Suggestion for protecting a smoker from his own smoke.—Gutz.

## Mountain Resort Acquires New Charms

1.—None in its world is the Banff Springs Hotel. 2.—An interior view of the new swimming pool built in the hotel.

Acknowledged by the most discriminating as the finest resort hotel on the American continent the Banff Springs Hotel, opened by the Canadian Pacific Railway Company on May 15, inaugurates a new era for visitors to the Rocky Mountains. This internationally famous center has been in process of rebuilding during the past two winter seasons and now stands complete, magnificent as to construction and furnishings and beyond compare as to beauty of surroundings.

The Banff Springs Hotel is so constructed as to blend, in the beauty of its architecture, with the snow-capped peaks of the mountain ranges. Built of native stone quarried from the base of Mount

Rundle and trimmed with Tyndal stone from Manitoba the building itself, complies with all the tenets of dignity and good taste.

The Banff Springs provides accommodation for 1100 guests and contains 600 bedrooms with baths in addition to a large number of suites of marked beauty and comfort. The layout of the public rooms and lounges has been carefully thought out, and these rooms are especially appealing in point of design and richness of furnishings. The main lounges are things of beauty in themselves and the view, down the valley of the Bow

River, is alone worth a trip to Banff.

The building of this great hotel or rather the rebuilding, has been going forward for several years, but the construction work has not interfered with the comfort of the summer guests. The work has been carried on during the winter months. Enormous wooden shells were erected and heated through-out with steam, and the work done with the same ease as if at the height of summer. It is interesting to note in this connection that this system of construction involved a monthly consumption of coal of more than 500 tons.

## Decide Golf Prize On Roof of World

THE Prince of Wales Trophy, one of golf's most coveted possessions, has just been decided on the spectacular links of the Banff Springs Golf Course, a mile above sea level, in the heart of the Canadian Rockies. This year the trophy went overseas to an Englishman, down from Oxford University, a newcomer to the ranks of champions who made the long trip a week ahead of play. He is W. A. Sime, Bedfordshire Golf Club, Bedford, England, who is seen shaking hands, with the runner-up, Gordon MacWilliams, Bowness Golf Club, Calgary, one time Alberta champion. Mr. Sime won the final, four up and three to play, and the

game was refereed by "Bill" Thompson, regular pro of the Banff course, who is seen standing between the pair. A large gallery followed the play.

The Brewster Cup championship was decided at the same time over the Banff Springs course. It was a woman's championship and was taken by Mrs. G. F. Dewolf (right in photograph) of Vernon, B.C., who defeated Miss Jean McMillan, of Calgary, Alta., in a close fight that was only decided on the 18th hole by one up.

Lay-out shows the two champions being congratulated by their opponents; and the Prince of Wales Cup with the Banff Springs Hotel in the background.

## Municipal District of Battle River No. 423

### NOTICE OF PREPARATION OF ASSESSMENT ROLL

**TRIENNIAL ASSESSMENT 1934 to 1936**  
NOTICE is hereby given that the assessment roll of the said Municipal District made for the purpose of the Alberta Assessment Commission, has been prepared and will for forty days be open to inspection at the office of the Secretary-Treasurer of the Municipal District from ten o'clock in the forenoon until four o'clock in the afternoon on every day not a public holiday except Saturday, and on that day from ten o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name, or that of any other person, upon the said roll, or to the assessment of any property, or to the assessed value placed upon any property, must within forty days after the date of this notice, lodge his complaint in writing with the Secretary-Treasurer of the Municipal District.

Dated this eighth day of August, 1932.  
CHAS. WILBRAHAM, Secretary-Treasurer.

A12-S2

## M.D. KINSELLA No. 424

### NOTICE OF PREPARATION OF ASSESSMENT ROLL

#### Triennial Assessment—1934 to Dec. 31st, 1936

Notice is hereby given that the assessment roll of the Municipal District of Kinsella No. 424, made for the purpose of the Alberta Assessment Commission, has been prepared and will for forty days be open for inspection at the office of the Secretary-Treasurer of the Municipal District of Kinsella No. 424 from ten o'clock in the forenoon until four o'clock in the afternoon on every day not a public holiday, except Saturday, and on that day from ten o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person, upon the said roll, or to the assessment of any property, or to the assessed value placed upon any property, must within forty days after the date of this notice, lodge his complaint in writing with the Secretary-Treasurer of the Municipal District.

Dated this 20th day of July, 1932.

B. H. GREEN, Sec.-Treas., Sedgewick.

## Advertising Peps Up Business

# CANADA'S

## Permanent Character

There is iron and rock in the veins of Canada, as well as gold and silver. The stern and heroic qualities that conquered a wilderness and built a Dominion, united from Ocean to Ocean, still predominate in Canadian character. There is a permanency in this country that grows out of that character. It is expressed in institutions as well as individual craftsmanship and frugal industry.

The Bank of Montreal was the first permanent bank in Canada. Having successfully co-operated with this country's people and business through the ups and downs of 115 years, the Bank today faces the future firm in its faith in the permanency of Canada's progress and the character, and resourcefulness of the Canadian people.

### SEDGEWICK CONSTITUENCY LIBERAL ASSOCIATION TO MEET AT KILLAM SEPT. 30

A general meeting of the Sedgewick Constituency Liberal Association will be held at the Recreation Hall, Killam, on Friday evening, September 30th, at 8 p.m., for the purpose of electing delegates to the provincial convention to be held at the Macdonald hotel, Edmonton, on Friday, October 21st. The association will also discuss any other business that may properly come before the meeting. All Liberal followers are invited to attend. H. G. Thorne, of Viking, is president, and J. H. Sayers, of Killam, secretary, of the association.

### HAY—FEED OATS—GREENFEED

HAY—Carload lot movement light, with few buyers noted; quality good. Upland \$8, and timothy at \$8@8.95, on track at country points. Calgary loose hay market shows loose upland at \$8, and baled \$8@8.95 per ton, delivered. Few deliveries, with fair demand. Feed oats—Market quiet and only odd lots being delivered. Price steady at 25c per bushel. Greenfeed—None of this feed handled yet, but crop good and price looks like being established at \$5@5.60 per ton, delivered.

### POULTRY—EGGS

Poultry—Chicken, No. 1, 7@8c; No. 2, 5c. Fowl, No. 1, over 5 lbs., 6@7c; No. 1, under 5 lbs., 4@5c; No. 2, 4c; roasters, 4@5c. Ducks, very hard to move.

Eggs—Prices steady; extras, 11@12c; firsts, 9@10c, and seconds, 6@7c.

### VIKING POSTMASTERSHIP ADVERTISED AS VACANT

Notices have been posted that applications for the position of postmaster at Viking are invited by the Civil Service of Canada. The office pays \$2,530.00 per annum, subject to variation according to revenue. We understand that several in town and district will apply for the position, with veterans of the Great War having the preference, with all other things being equal and qualified for the position.

"And was the defendant expensively garbed?" inquired the lawyer of the negro witness.

"Indeed he was, sah. Ah knows expensive garbage when ah sees it."

"What's that you're putting in your shirt pocket?" asked Murphy.

"Dynamite," whispered Donovan.

"I'm waiting for Casey. Every time he meets me he slaps me on the chest and breaks me pipe. The next time he does it he'll blow his hand off!"

### Here and There

Popularity of Canadian apples abroad has steadily increased. Last year apple exports to Europe from western Canada reached a new high record of 175,000 boxes, as compared with 150,000 boxes in 1930. Fruit growers are realizing an even larger crop this year.

R. V. Dandall, formerly Travel, Box Passenger Agent, Canadian Pacific Railway, Winnipeg, was appointed District Inspector Agent, Algona District, North Bay, Ont., effective August 1st. Mr. Dandall has had a long and successful career with the company, and is now receiving congratulations on his most recent promotion.

Numbers of anglers returning through Ottawa and Montreal report having experienced exceedingly good bass fishing. This was the expression of a group from Cassin's Club, who recently visited the bass fishing waters of the Gatineau River, north of Montreal, according to A. O. Seymour, General Tourist Agent, Canadian Pacific Railway.

This is evidently the peak year with partridge, one would judge from the reports emanating from various parts of the Laurentian and Gatineau districts of Quebec, according to A. O. Seymour, General Tourist Agent, Canadian Pacific Railway. In almost every locality, partridges, as the ruffed grouse and Partridge, are the best known, are very plentiful. Most flocks hatched this year are nearly full grown.

New freight rates on live stock with low minimum weights to meet the competition of motor trucks in the transportation of animals to market have been put into effect by the Canadian Pacific and Canadian National Railways covering movement from stations within a radius of 130 miles of Toronto, and these were effective from August 15. The new rates are being tried out as an experiment, and it is expected they will result in a very substantial increase in the rail movement of cattle, sheep, and hogs.

One of the most interesting passengers arriving in Montreal by the Canadian Pacific S.S. Duchess of Richmond, on August 13, was Miss England III, the world's fastest motorboat. After the international races with Garwood boat at Detroit, Kaye Don will take "Miss England III" to Toronto, where visitors at the Canada National Exhibition will be able to see an attempt by the powerful vessel to lower her own or any other boat's record. The above boat was accompanied in the Duchess of Richmond, and "mate" to Kaye Don during the races.

Two hundred organizations affiliated with the sovereign body of the Canadian Chamber of Commerce, whose seventh annual convention will be held at Halifax, September 13-15, will send members to a pre- and post-convention sea cruise and land tour with the Clarke Steamship Co., the Dominion Atlantic and the Canadian Pacific Railways, scheduled to leave Montreal September 2, and return there September 15. The sea cruise will be on the S.S. New Northland, calling at Charlottetown, Sydney, St. John's, Moncton, St. John's, Newfoundland, and Halifax, prior to the convention, and will cover the Maritime Provinces after it.

Cost of travel to Eastern Quebec, the Lower St. Lawrence and to resorts in the Maritime Provinces has been deflated this summer in a far-reaching and long-overlooked manner. This reduction works out at about one-fourth for the round trip to any one of a score of glorious summer centres on Canada's unsurpassed Atlantic seaboard with proportionately reduced fares to many other destinations in eastern Quebec and the Maritime Provinces which are also in effect from stations in the province of Quebec, Montreal and west, and also in Ontario, Sudbury, Canby, Windsor, and east. This great concession by the railways of Canada is on offer during the month of August with a return limit of 21 days, excluding the date of sale. (C2)

### FUGITIVE MONKEY RAISES A RACKET AT TENNIS CLUB

Cannes, France, Sept. 10.—A monkey which had escaped from its cage in the new Spanish Club here during the finals of a tennis match spread panic among the spectators here.

Lady Ursula Finner-Saunders, daughter of the Duke of Westminster, was bitten on the ear.

The animal, which belongs to the new tennis club, broke out of its cage climbed on the seats and attacked Lady Ursula first. Then it jumped to the shoulder of Countess Noailles, and threatened other spectators. Several women screamed and there was a rush for the doors.

The monkey was captured by the Duke of Dayan, son of the Countess Noailles.

### B. C. HOSPITALS TO TAKE VOTE ON SWEEPSTAKES

VANCOUVER.—The British Columbia Hospitals Association will take a plebiscite among its membership on the question of legalized sweepstakes for the benefit of hospitals, it was decided Wednesday at the annual convention here of the association.

## Health Service

OF THE

Canadian Medical Association

Edited by

GRANT FLEMING, M.D., ASSOCIATE SECRETARY

### HEALTH AND SCHOOL

The child who is starting school for the first time faces what is a rather difficult period for many children. Unless he has been guided properly during his pre-school years the change from the home to the school is not an easy change for him to make.

The child should be told what school is. He must be happy in school and get real pleasure out of his school work if he is to do well in school. The child will be eager to go to school if he finds that it is a place which helps him to do the things which children want to do.

A great deal is written about health habits and yet it seems that comparatively few parents realize just how much the good health of their children depends upon the establishment of good health habits as part of the child's daily routine. It requires patience to accomplish this and it is to be remembered that scoldings defeat the purpose; the child needs encouragement.

The health habits of a school child should include personal cleanliness. A warm bath twice a week, underclothes, and stockings frequently changed, teeth brushed at least twice a day—after breakfast and before going to bed—hands washed before every meal. Plenty of sleep, so that the child is properly rested, can be secured only through having a regular bed-time which allows the required hours of sleep before it is time to get up and prepare for school.

Play is necessary for the child, and every child's life should be so organized that he will get plenty of outdoor exercise and play every day.

Meals should be served at regular hours. After washing his hands, the child comes to the table. The child requires a variety of food, and because he is growing and active, he needs a good deal of energy and body-building foods. The selection of proper foods is the duty of the mother. The attitude of the parents towards food will have a great influence on the children. If the father will not eat this or that he need not expect the children to do so. They will follow his habits—not his advice or his orders.

The healthy school child is naturally active and will not need to be urged to play. He will need some supervision so that he does not overdo the play and forget that there is a regular bedtime. It is important that children get up early enough to have time to wash, and to eat and enjoy their breakfast. Breakfast should be given just as much attention as any other meal. A regular bowel movement daily is a necessary habit. The child's activities must not be allowed to interfere with toilet habits, which depend more upon regularity than upon anything else.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

### CONTACTS

In discussing the communicable diseases the term "contacts" is frequently used, and it is desirable that there should be a general understanding of the meaning of the term.

The communicable diseases are caused by germs. Each disease has its own particular germ. Most of the communicable diseases are spread in a fairly direct manner, by transfer of such secretions as saliva, from the sick to the well. The spread of the disease requires that there be sufficiently intimate contact between the sick person and others to allow for the transference of germ laden secretions. Those who have been close to the sick person, such as the members of the family, are known as "contacts."

Because contacts have been exposed to the disease, they are as a rule quarantined for that period of time which the disease takes to develop. This period is the "incubation period" of the disease, and varies for the different communicable diseases; therefore the period of quarantine of contacts varies according to the disease. The contacts are quarantined because, if they are developing the disease, they may pass it on to others before the appearance of such typical symptoms as a rash. A notable example of this is measles. Before the rash appears the patient has what seems to be a cold in the head. During the time the nose is running, and the patient is coughing and sneezing, he spreads the disease; indeed, the disease is spread most frequently at this time—before the rash appears. Tuberculosis is a disease in which

the contacts receive a great deal of attention. It is amongst the contacts—the children and adults who have been living with the case—that one looks for new and unsuspected cases. Tuberculosis is a chronic disease, and usually develops slowly; so it is that the contacts of tuberculosis should be under medical supervision for several years.

Obviously one should avoid becoming a "contact"; this is another way of saying that one should avoid exposure to disease. The contact is practically free from danger if proper precautions are taken. It is carelessness, or ignorance, or contact with unknown cases that is chiefly responsible for the spread of communicable diseases.

(Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.)

Present indications point to an increase of 10 to 12 per cent in the wheat acreage of Argentina as compared with the area sown last year, according to the United States Department of Agricultural Reports. Last year Argentina's acreage was 17,300,000. Wheat seeding in Argentina was practically completed on August 1st and where the seed had germinated and the plants were above ground, conditions were said to be good.

## THREW AWAY HIS STICK

### When Sciatica Yielded to Kruschen

There can be no doubt that this man has finished walking with a stick, for it is now four years since he discarded it.

He writes:—"For 18 months I suffered with chronic sciatica and rheumatism, and was unable to walk without the aid of a stick. But after taking Kruschen Salts for a short time, I was able to throw away the stick. It is now four years since this happened, and I have had no return of the complaint, and have not lost a day from work. I shall never be without Kruschen Salts, as they are worth their weight in gold. You can use this letter as you please, as I can honestly recommend Kruschen Salts to any sufferer."—C. F.

If the eliminating organs become sluggish, they permit harmful uric acid to accumulate and deposit itself in the tissues, muscles and joints in the form of needle-pointed crystals, which, piercing the nerve sheaths, cause excruciating pains of sciatica. The six salts in Kruschen stimulate the eliminating organs to healthy, regular action. Mischievous uric acid is then given no chance to collect.

## WORLD HAPPENINGS BRIEFLY TOLD

Robert Moode, 67, who had been for nearly 40 years connected with the circulation side of the "News of the World," being its senior representative in the South of England, is dead.

Dr. John Stanley, junior research investigator on the staff of the National Research Laboratories, formerly of Vancouver, B.C., has resigned. He has accepted the post of assistant professor of biology at Queen's University, Kingston.

A royal robe of sealskin, ornamented with ermine, to be worn on state occasions only, has been ordered by the emperor of Ethiopia from a firm of Montreal furriers. His majesty insisted the order be placed "within the empire."

The order of the Red Star, the highest decoration of the Soviet government, has been awarded to Col. Hugh L. Cooper, United States engineer, for his work on the huge Dnieper project power development in southern Ukraine.

Having kept a census of horses since the World War, the British War Office will start one of automobiles. Apartments built in Greater Copenhagen, Denmark, last year, totalled 8,522, the largest number ever recorded in any 12 months.

No change is to be made in the size of Canadian one dollar bills, the finance department stated recently. Recent rumor said the Canadian bill would be cut down in size, much after the style of the smaller United States bills.

British Columbia's oldest pioneer, Alexander MacLean, aged 81, who came to British Columbia 74 years ago and whose memories went back to the days when the site of Vancouver was dense forest, is dead. He was born in San Francisco.

## Liner Card-Sharps Have Lost Occupation

Practice Is Almost Unknown Now On Atlantic Boats

In many of the world's big cities today, including London, England, are the scattered bands of clever and well-educated men who at one time were expert card-sharps on the great luxury liners.

The depression, which brought about a scarcity of easy money, helped the police in their vigorous campaign against these men, who specialize in card-sharps aboard ships.

Their expenses were high, and the stakes at most of the games were too low to produce any profit after paying their fares as first-class passengers.

Card-sharps on the Atlantic liners is today almost unknown.

Wonder somebody hasn't thought of using a motorcycle in a jazz band.

"Why do you sit and drink from morning till night?"  
"Well, you don't expect me to sit up at night to do it?"—Allt for Alla, Stockholm.

## Seaplane Base At The Pas

Manitoba Town To Be Registered On Air Route Maps

Erection of a mast and wind cone on the bank of the Saskatchewan River, as a guide to fliers, will be arranged by the Board of Trade of The Pas, Man., through the co-operation of the Imperial Oil Co.

The wind cone, which will mark the landing place, and a mooring platform for pontoon equipped planes, will be arranged by the board.

H. L. Weber, agent at The Pas, for the Imperial Oil Co., offered the cone and assistance in its erection, and the board accepted the offer, passing a resolution of thanks to Mr. Weber's company.

The board will have The Pas, Man., registered on Canadian air maps as a fully equipped and qualified seaplane base.

## New Form Of Advertising

Interesting Process Used To Project Writing On Clouds

Sky writing, a new form of advertising in which the message is projected on the clouds at night, was demonstrated at London. The government recently decided the method was legal. The process involves the use of small stencils placed in the beam of a powerful searchlight to cast letters on to the cloud base. The searchlight used is of 450,000,000 candle power. For skywriting purposes the limit of its really effective range appears to be a cloud base of about 3,000 feet high. Most of the legends shown contained up to twenty-five letters. Some include a design such as the British lion.

## A CHIFFON PRINT FOR FORMAL AFTERNOON AND EVENING GAIETIES

Don't you think it lovely to have a dress with a certain amount of swishiness about its hem for more formal occasions?

A delicious print in chiffon made today's model in white with splashy red flowers. The soft crepe silk girdle toned with the print.

It's a dress that would do delightful duty for informal evening wear. Sheer chiffon voiles are also charming and satisfactory. They tub beautifully.

Crepe silk and triple sheers can also be used for this sleekly slender model. Style No. 477 is designed for sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust. Size 16 requires 4 yards of 39-inch material with 1 1/2 yards of 39-inch contrasting.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

### Canada-Empire Trade

Statistical Review Issued By Department Of Trade And Commerce

Canada is becoming more empire conscious in her purchases.

A statistical review, issued by the Department of Trade and Commerce, showed that nearly 30 per cent. of the Dominion's imports in July came from empire countries as compared with only 26.3 in the corresponding month last year.

The percentage of foreign imports dropped from 73.7 per cent. in July to approximately 70 per cent.

Compared with the preceding July, Canadian imports last month from foreign countries registered a drop of \$10,621,346, while those from empire countries decreased by only \$2,000,000.

In July Canada wrested from the Netherlands second place amongst countries of the world in supplying the cheese market of the United Kingdom. British trade figures, the Dominion Bureau of Statistics reports, show that the leading importations were: New Zealand, 16,602,208 pounds; Canada, 12,286,283 pounds; and Netherlands, 11,384,656 pounds. There was a sharp advance in the importation of Canadian canned salmon by the United Kingdom in July. British trade figures give the amount as 1,726,928 pounds as compared with 488,872 pounds a year ago. The United States supply last month was \$455,584.

## Why Outlined Profiles

### Are Called: Silhouettes

Named After French Finance Minister Noted For Strict Economy

The black profiles called silhouettes are named after Etienne de Silhouette, the Finance Minister of France in 1759. Silhouette made an immediate name for himself by the "stringent" economies he effected in public finance. It was his policy to refuse to pay for more than "the shadow of any substance." The process of outlining profiles thrown by shadow on to a white sheet had just been introduced at that time, and as these pictures were considered exactly to resemble the Minister's avowed policy, his name was immediately bestowed upon them.

## Liquor In Bulk

Saskatchewan Commission Planning To Follow Lead Of Other Provinces

The Saskatchewan Liquor Commission is planning to follow the lead of other provinces and import certain brands of liquor in bulk instead of in bottles.

By importing hogsheds of liquor and bottling it here, a saving is effected on overhead items such as the cost of bottling and excise duties. The bulk purchase scheme, it is expected, will mean lower prices to the purchaser.

American Nature Association Party Meet With Success In Rockies

After four weeks on the trail along the northern boundary of Jasper National Park and the adjacent mountains of British Columbia, the American Nature Association party returned to Jasper Park Lodge with several thousand feet of big game motion picture films.

Under the leadership of Arthur N. Pack, Princeton, N.J., president of the association, the party included Laurence S. Rockefeller, Tarrytown, N.Y., son of John D. Rockefeller, Jr.; Mrs. Pack, Mr. and Mrs. Robert W. Johnston and Mr. and Mrs. W. B. Bryan, Jr., all of Princeton.

Some novel staking won a number of the shots for the camera crew. Wearing white costumes with hoods, Mr. and Mrs. Pack aroused sufficient interest among the ordinarily-suspicious goats to approach within a few feet of them on one occasion. In the Tonquin Valley the party discovered a herd of more than 100 caribou and acquired some fine close-ups. Later, in the Snake Indian River country, was approached practically every kind of game in the Canadian Rockies.

"I got one fine Billy," said Mr. Pack, "by dropping on hands and knees and imitating him when he lowered his head and stamped his feet to show anger. We exchanged boasts and compliments until I had crawled to within ten feet of him. Then he took to his heels and it all made a fine picture."

## A Worth-While Idea

Here's a little idea worth keeping tucked back somewhere in your mind. Remember that it is always a good plan to remove the spare from the rack in the rear or out of the fender well before jacking up the car to take off the flat. Otherwise, in getting the spare loose the car may be shaken enough to cause it to slip off the jack.

Iceland has 1,605 automobiles.

## BRITISH PARLIAMENTARIANS

Hon. Sir Philip Cunliffe-Lister, and his private secretary, Captain T. L. Dugdale, M.P.

Distinguished Visitors Deliver Addresses On Trip Through Western Canada

By the achievement of the Imperial Conference we have shown how a great group of nations can organize for trade purposes along right lines, in the opinion of the Right Honorable Sir Philip Cunliffe-Lister, C.B.E., M.C., M.P., Secretary of State for the Colonies, expressed during a brief stop in Winnipeg on a tour over Canadian Pacific Railway lines to the west coast.

Sir Philip was accompanied by a group of keen young British parliamentarians eager to see western Canada in the highest season. Among them were his own private secretary, Captain T. L. Dugdale, M.P., for Richmond and Yorkshire, one of the largest agricultural constituencies in England; J. P. L. Thomas, M.P., private secretary to the Secretary of State for Dominion Affairs; Geoffrey Lloyd, M.P., private secretary to the Lord President of the Council, and Viscount Hinchinbrooke, private secretary to the Right Honorable Stanley Baldwin. "In England," said the distinguished visitor, "we have taken the

## Indications More Favorable

Better Tone Said To Permeate Business Circles

Although no definite improvement has yet appeared in the volume of Canadian trade, a better tone pervades business circles and greater activity is in sight, according to a business summary of the Bank of Montreal.

Full average crops are assured, says the report. Wheat crops in the prairie provinces will run 100,000,000 bushels more than last year and low harvesting costs will be helpful to farmers and all branches of business. Except for hay, crops in other provinces are excellent. Livestock prices are low but marketings are large and the dairy industry maintains a normal output, with recent advances in the price of cheese and butter.

Most manufacturers continue slight but shipping is better than last season; more grain has passed through Montreal; more British coal is being imported and a stronger autumn business is expected.

The report points to the general hardening of commodity prices as an encouraging sign. Export trade for July was higher than in any month since December. Imports were down, increasing Canada's favorable trade balance.

More confident feeling with a rise in commodity prices is reported for both the United Kingdom and the United States.

## Recipes For This Week

(By Betty Barclay)

### BANANA BUTTER

2 cups rice flakes crushed.

1/2 cup butter, melted.

2 apples.

2 bananas.

1/2 cup sugar.

1/2 teaspoon cinnamon.

1/2 cup water.

2 tablespoons lemon juice.

Pour melted butter over rice flakes crumbs and mix thoroughly. Place a layer of one-third the prepared crumbs in bottom of buttered baking dish. Cover with 1 apple and 1 banana, pared, and thinly sliced. Sprinkle with half the sugar, cinnamon, and lemon juice. Cover with another layer of crumbs and repeat, using remaining fruit and seasonings. Pour water over mixture. Bake in moderately hot oven (375 degrees Fahrenheit) 30 minutes. Serves 6.

### COCONUT SALAD DELICIOUS

2 cups cabbage, finely shredded.

1 cup grated pineapple, drained.

1/2 cup coconut, premium shred.

3/4 cup mayonnaise.

Dash of salt.

Crisp cabbage by allowing it to stand in ice water. Drain and dry thoroughly. Toss lightly together with remaining ingredients. Serve on crisp lettuce. Garnish with strips of pimiento and chopped chives. Serves 6.

## Vases Placed In Archives

Texas University Has Ornament Belonging To Helen Of Troy

Two vases circumstantially accredited with being from the boudoir of Helen of Troy have been placed in the archives of the University of Texas, at Austin. They are the gift of the late A. W. Terrell, Minister Terrell received them from Consul Agent Frank Calvert, who owns the site of the ancient city of Troy. Calvert cooperated with Dr. Heinrich Schliemann in excavations of the ancient city.

"Is that your college diploma you have framed there?"  
"Well, it's a sort of diploma. It's a worthless stock certificate showing that I've been through the school of experience."

## British Speed Up Telephone System

Invention Called "Ghost Circuits" Perfected By Post Office

In an effort to speed up the British telephone system the post-office has perfected an invention which is expected to prove revolutionary.

A new system of "ghost" telephone circuits using one pair of telephone lines has been introduced.

It established a new British record when first inaugurated to tell the world of Kaye Don's record-breaking run in the British speed boat, "Miss England III," on Loch Lomond.

"The new development is based on the carrier wave system of voice transmission," said an official of the G.P.O.

"It is really after the principle of wireless applied to the telephone. The engineers, who have been testing at the research station in London, have established that in theory one circuit of two-wires can be used for any number of circuits.

"Conversation on the 'ghost' circuit is absolutely private. This is regarded as a great achievement."

## Church Service Held On Nelson's Flagship

Was Notable Event Of Navy Week At Portsmouth

Naval officers and blue-jackets stood bareheaded with citizens of Portsmouth, on the decks of the Victory, for the first public church service that has ever been held to usher in Navy Week.

More than a thousand people gathered on the stone pavings below surrounding the famous old warship to join in the service, which was relayed by loud speakers.

The hymns were, "O God our help in ages past," and "For those in peril on the sea."

The Bishop of Portsmouth based his sermon on the life of the navy's greatest admiral, Nelson.

A small group of people afterwards filled Nelson's day cabin, two decks below, surrounded by his own furniture, to receive communion from the admiral's own communion plate.

## A Record For Speed

Parcel From Montreal Reached Baghdad In Thirteen Days

From Montreal to Baghdad in 13 days—this is the record established in sending a 10-pound sample consignment of Canadian industrial products to Baghdad.

Of the 13-day period, seven days were taken for an ordinary steamship crossing from Montreal to Liverpool. From the Merseyside the package was expressed to London, thence by automobile to Croydon airport where it was just in time to catch the London-Indian mail plane. On the 13th day of its journey the consignment reached its destination, ready to capture a new market in the Near East.

Why argue? If you are right, you learn nothing. And being wrong makes you so mad you don't want to learn.

"The neighbor's piano is too loud. Shut the door."  
"It is shut."  
"Then turn the key."—Pages Gates, Yverdon.

Satisfy their 'tween-meals hunger with Christie's Premium Soda Crackers and milk, or jam, or spreads, or peanut butter. They'll love them and so will you. Keep a package in the pantry all the time for soups, salads, desserts, quick lunches.

Crisp, light, flaky and slightly salted. Delicious.

### THE HOUSE OF DREAMS-COME-TRUE

— BY — MARGARET PEDLER

Author of "The Splendid Folly," "The Hermit of Far Ynd," Hodder & Stoughton, Ltd., London.

CHAPTER XXX—Continued

She made no pretence at mourning the man who had died her life into a living hell for nearly three years and who had stood like gaoler between her and the happiness which might have been hers had she been free. But the conventions, as well as her own feelings, dictated that a decent interval must elapse before she and Nick could be married, and this would be for her a quiet period dedicated to the readjustment of her whole attitude towards life.

The length of that period was the subject of considerable discussion. Nick protested that six months was amply long enough to wait—too long indeed—but Claire herself seemed disposed to prolong her widowhood into a year.

"It isn't in the least because I feel I owe it to Adrian," she said in answer to Nick's protest. "I don't consider that I owe him anything at all. But I feel so battered, Nick, so utterly tired and weary after the perpetual struggle of the last three years that I don't want to plunge suddenly into the new duties of a new life—not even into new happiness. It's difficult to make you understand, but I feel just like a sponge which has soaked up all it can and simply can't absorb any more of anything. You must let me have time for the past to evaporate a bit."

But it required the addition of a few commonsense observations on the part of Lady Anne to drive the nail home.

"Claire is quite right, Nick," she told him. "She is temporarily worn out—mentally, physically and spiritually spent. Her nerves have been kept at their utmost stretch for and on for years, and now that release has come they've collapsed like a fiddle-string when the peg that holds it taut is loosened. You must give her time to recover, to key herself up to normal pitch again. At present she isn't fit to face even the demands that big happiness brings in its train."

So Nick had perforce to bow to Claire's decision and it was settled that the first month or two, at least, of her widowhood Jean should remove herself and her belongings from Staple and bear her company at Charnwood. And meanwhile Nick and Claire would spend many peaceful hours together of quiet happiness and companionship, while Claire, as she herself expressed it, "reborn her soul."

To Jean the issue of events had brought her nothing but pure joy. Her belief had been justified, and the grim gateway of death had become for these two friends of hers the gateway of happiness.

She had neither seen nor heard any-

### All Her Children Were Troubled With Diarrhoea

Mr. J. J. Bickert, R.R. 1, Enderby, B.C., writes:—"Last Summer all my children were troubled with diarrhoea, and were so bad I did not know what to do. A friend told me to give them Dr. Fowler's Extract of Wild Strawberry, so I got a bottle, and after a couple of doses you should have seen the change. The children were soon well again, and I am very thankful to your wonderful remedy. I find it the only one that relieves so easily and quickly."

boded something unpleasant. He could not imagine in what manner the affairs of Madame de Varigny impinged upon his own, or rather, as she seemed to imply, upon those of his future wife, and this very uncertainty had impelled him to fix the interview. The Countess had demanded at as early a moment as possible. Disagreeables were best met and faced without delay. So now he was momentarily awaiting her arrival, still unable to rid himself of the impression that something of an unpleasant nature impended.

He glanced through the open window facing him. Afterwards, he was always able to recall every little detail of the picture upon which his eyes rested: it was etched upon his mind as ineffaceably as though cut upon steel with a graver's tool.

Although the mellow sunlight of September flooded the lawns and terraces, that indescribable change which heralds autumn had already begun to manifest itself. Not that any hint of chill as yet edged the balmy atmosphere or tint of russet reddened the gently waving foliage of the trees. It was something less definite—a suggestion of maturity, of completed ripening, conveyed by the deep, rich green of the grass, the strong, woody growth of the trees, the full-blown glory of the roses nodding on their stems.

To the left, in the shade of a stately cedar, Lady Anne and Jean were encamped with their sewing and writing materials at hand, and the rays of sunshine, filtering between the widespread branches above them, woke fugitive gold and silver lights in the downy auburn and white-crowned heads. Further away, in the valley below, the brown smudge of a wide-bottomed boat broke the smooth expanse of the lake whence the mingled laughter of Nick and Claire came floating up on the breeze.

It was a peaceful scene, full of intimate happiness and tender promises, and Blaise watched it with contented eyes. The voice of Baines, formal and urbane, roused him from a pleasant reverie.

"Madame de Varigny," announced that functionary, throwing open the door and standing aside for the visitor or to enter.

Blaise rose courteously to greet her, holding out his hand. But the Countess shook her head. "No, I will not shake hands," she said abruptly. "When you know why I am coming, you will not want to shake hands with me."

There was something not unattractive about the outspoken refusal to sail under false colours, more especially softened as it was, by the charm of the faintly foreign accent and intonation.

Madame de Varigny had paused a moment in the middle of the room and was regarding her host with curiously appraising eyes, and as Blaise returned her gaze he was conscious, as once before at the fancy-dress ball at Montavan, of the strange sense of familiarity this woman had for him.

"I am sorry for that," he said, answering her refusal to shake hands. "Won't you, at least, sit down?" pulling forward a chair.

"Yes, I will sit."

She sank into the chair with the quick, graceful motion of the South, and continued to regard Blaise watchfully between the thick fringes of her lashes. Had Jean been present, she would have been struck anew by the expression of implacability which hardened the dark brown eyes. By that, and by something else as well—a look of unmistakable triumph.

"I have much—much to say to you, Monsieur Tor-ma-rin," she began at last. "I will commence by telling you a little about myself. I am—here she looked away for an instant, then shot a swift, penetrating glance at him—"an Italian by birth."

(To Be Continued.)

### Science Perfects Cure

#### For Car Drowsiness

Ancient Chinese Drug Is Said To Be Effective

Science has perfected a cure for the driver who falls asleep at the wheel of his automobile. Narcolepsy, the name given to sudden spells of irresistible sleepiness, has been found to succumb to doses of ephedrine, a drug which in the form of mahuang was used in Chinese medicine 4,000 years ago. Dr. Harry A. Collins, who announced the cure, declared one case had responded instantly, after recurring attacks for 12 years had caused him to have several automobile accidents.

Pelicans have no song and the adults no call-notes, while the young call for food with a low grunt, rising at times to a shrill scream.

Most woodpeckers bore round holes in trees, but the pileated woodpeckers dig both round and square holes.

### It does pay to "ROLL YOUR OWN"

From the standpoint of economy—each 20c. package of Turret Fine Cut contains the makings for at least 50 cigarettes—and Chantecleer cigarette papers free.

From the standpoint of real smoking pleasure, there's nothing like rolling your own with the smooth, mellow, fragrant Virginia tobacco that you get in the Turret Fine Cut package.

It does pay to roll your own with Turret Fine Cut.

15c and 20c packages also in 1/2 lb. vacuum tins

FREE Chantecleer cigarette papers with every package.

Larkspur, coral spray,  
Under breezes chilly  
Shrink and fade away.  
But when Summer gaily  
Dances down the lanes,  
They wax fairer daily  
To her blithe refrain.  
Love is sunshine, falling  
When morn's mists depart:  
Love is summer, calling  
To a woman's heart.  
Women are like flowers:  
Until life is done  
Living for those hours  
When they see love's sun.

#### To Beat Unemployment

German Plans To Put University Graduates On Farms

Placing university trained young men on farms is the object of associations formed in Berlin and Leipzig, Germany, among the university people themselves. Jobs as agricultural laborers are being sought for thousands. Because, within a short time every third university trained man in Germany will have to join the ranks of the unemployed, unless something is done about it, efforts are being made to get farm work for as many as possible of the 60,000 academically trained men now unemployed.

Externally Or Internally, It Is Good.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Indicative of the great urge modern girls have to travel, one single steamship company had 125 applicants for a single stewardess job they had open. Many were college girls.

for SCIATICA  
With the painful part well with warm water, then rub in plenty of Minard's and you'll feel better!

MINARD'S "KING OF PAIN" LINIMENT

W. N. U., 1933

#### Believe It Or Not

Resident Of Halifax Comes Along With Good Fish Story

The best fish story of this season is told by a resident of historic old Halifax. The story is about a gold fish, not the one who had no privacy, but an extremely adventurous gold fish.

The gold fish, according to a reputable Halifax Journal, jumped four feet from its bowl to a chestfield, where it lay in a state of coma for goodness knows how long. Discovered by its heart-broken owner before rigor mortis had set in, it was placed in cold water. No result. But upon being held over the stove it was reminded of its old home among the rice fields of Japan and gave several encouraging wiggles. Back again in its natural element it resumed its exposed and wandering, if restricted, manoeuvres. Believe it or not, and wonder what a gold fish thinks about.

#### German Medical Men

##### Solve Old Problem

Claim Jealousy Caused By Excess Of Iodine In Blood

A number of prominent German medical men have solved the mystery of jealousy that has baffled the human race for many centuries. The Berlin physician simultaneously experimented on a number of women in municipal hospitals and have now come to the conclusion that an excess of iodine in the blood causes men and women to become jealous.

The medical men asked for volunteers to submit to experiments. The men were too proud and did not apply, but a great many women volunteered and allowed themselves to be hypnotized. Blood was drawn from them and submitted to microscopic examination. It was proven that the blood of jealous women had a hundred per cent. more iodine than that of women not so disposed.

Always keep Douglas' Egyptian Liniment at hand, ready to bring immediate relief to burns, sores and felons. Stops bleeding at once. Prevents blood poisoning. Splendid for sore throat and quinsy.

#### Three-In-One

"Did my medicine do any good?" "A wonderful remedy doctor. I took three spoonfuls and my cough went. I rubbed three spoonfuls into my knees for rheumatism and the rest we used to clean the silver."

It is said that "no man is a hero to his valet"—but if you want to get the real "low-down" you should hear what his banker thinks of him.

"Sir, my wife said I was to ask for a raise."

"Good! I'll ask my wife if I may give you one."

#### Reclamation Project

Reclamation of 10,000 acres of rich silt lands on the Kootenay River, due at an expenditure of \$300,000 will be started this fall, it was announced by Hon. N. S. Loughheed, British Columbia Minister of Lands. The project will be completed within two years.

Building construction in Shanghai, China, is increasing.

Playing the game is the thing, not the score.

### DECLARE THEY HATE SIGHT OF DUST CLOTHS

Canadian women vote dust cloths a nuisance to use and to wash

MUCH PREFER APPLEFORD WONDER PAPER

With so much inventive thought being given to eliminating unnecessary housework, it is only natural that a worthwhile substitute for the dusty dust cloth should be sought.

Now it has been found! Appleford Wonder Paper which actually dusters—as it cleans—as it polishes is receiving a hearty welcome from Canadian women who detest dust cloths and all they stand for. Wonder Paper is made from clean rags and soft paper pulp, thoroughly impregnated with a high-grade furniture polish, and absorbs dirt instead of spreading it. Appleford Wonder Paper comes in handy-size packages, twenty-five sheets, each as large as a duster. You merely crumple a sheet into a soft wad, and go over the surfaces requiring attention.

You'll be amazed at the quick and lasting finish Wonder Paper gives. When one side is worn and soiled, simply turn the Wonder Paper inside out. After the furniture or woodwork has been gone over, you can still use your Wonder Paper on the floors.

And when you're through—throw it away. No duster to shake out or wash. No bother at all. The most obnoxious part of housework done in half the time and with half the effort. Doesn't the idea appeal to you?

#### Special Offer

Wonder Paper is made by the makers of the famous PARA-SANI heavy waxed paper in the Green Box. Most grocery, hardware and department stores sell Appleford Wonder Paper. If yours doesn't, just send the coupon and we'll give you a new and unique booklet entitled "Leftovers," containing one hundred recipes, as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one full-size package of WONDER PAPER and your 100 recipes for "Leftovers."

### STEALING MILLIONS

Startling disclosures in connection with the University of Manitoba trust funds implicate the bursar John Machray, K.C., in the disappearance of several hundred thousand dollars. Shortages are also found in trust funds of Rupert's Land diocese of which Mr. Machray had charge. The irregularities, extending over a period of years, have no doubt been made possible by the high standing which the suspected man had attained.

The exposure has left Winnipeg dazed, and if Mr. Machray is guilty, there seems little excuse to offer for such wholesale theft. As head of one of the largest law firms of the city, and as bursar of the University, his income must have been such as to lift him beyond any normal need. His upbringing and religious standing, his assumption of virtue, make the situation more disturbing. Will he be subjected to the same cold and impartial justice as the shivering bank clerk who takes \$500.00, or the hungry man who breaks into a grocery store? It is said that theft is often a matter of opportunity and that the man who would steal \$10 would, given opportunity, steal a million. But a very rigorous and specific law governs and punishes petty thieving, while the theft of a million lifts a man to the realm of high finance, for which there seems more generous provision.

Again, the man who commits a small theft may be driven by sheer necessity of life, and his offence brings about little or no distress to any but himself, while the man who steals by the thousand, leaves a trail of disaster affecting scores of struggling individuals. As a single instance, the Winnipeg University is obliged through loss of the trust funds to double all tuition fees for students, and to cut all salaries 13 per cent. It seems part of the system, that the little people should always foot the bill.

Whenever one reads of these defalcations, apparently so much more frequent in high places than amongst those in humbler circumstances, one is impressed anew with the virtue of integrity. In this district are many men holding positions of trust and handling large sums of money. Their scrupulous honesty and ability to account for every penny, is taken as a matter of course. The secretary-

treasurers of the municipal districts, are giving exceptional service, particularly in these times, when financing is difficult for the municipalities. With all too little acknowledgment or commendation, on all too little salary, they are faithfully guarding public welfare and conducting their responsibilities with a conscientiousness far beyond their material reward.

It is only when some spectacular theft of funds is brought to light, that the majority fully appreciate the value of an honest man.—High River Times.

### Wastepaper Basket

Then there's the Scotch shepherd who held an umbrella over his sheep so the wool wouldn't shrink!

You never get the best of your wife? No!—If I talk in my sleep she goes to sleep and talks right back at me!

Uplifter: Goodness me! Don't you know beer is a curse?

Worker: Yeah, lady! But only a mild sorta curse—like, "Goodness, me!"

"Bring me a piece of peach pie to remind me of you," remarked a fresh young fellow to a waitress in the restaurant. "Why not take a piece of prune pie and remind you of your self?" she replied.

"Don't you think my new suit is a perfect fit?" asked a Bruce fellow of his Viking girl. "Fit?" she replied, "Why it looks to me more like a convulsion."

Heard on the tennis courts here: "Has your wife done any fall cleaning yet?" "You bet! You ought to see the polish she's put on her tennis racket!" she replied.

Suggested sign for confectioners: "We don't know where mom is, but we have pop on ice."

Seeing a dejected looking young fellow sitting in a corner after the ceremony at a Kinsella wedding, the bridegroom approached him and cheerfully asked: "Have you kissed the bride?" "Not this last day or two," the young fellow replied.

## Main Street

The next W. A. Meeting will be held at the home of Mrs. Geo. Higginson, September 20th, at 2.30 p.m. Miss L. B. Coffin has returned to Sexsmith, Alta., to resume her duties as teacher after spending her vacation with her parents at Irma.

School Fair—Saturday, Sept. 17. Threshing is nearing completion in the Irma district after one of the finest harvest seasons the west has ever seen. Since cutting started there has been practically no time lost from inclement weather. No serious frosts appeared and most of the wheat is grading No. one or one hard. While the yield in many cases has not been as heavy as expected, the good grade and early threshing of the crop will help compensate for the lighter yield.

School Fair—Saturday, Sept. 17. Work is progressing nicely on the new highway west of Irma. The outfit working east from Viking has finished the grading to Phillips and this piece of the road is being used by motorists. Another gang is working at Kinsella and Tuesday Mr. J. Dempster, another contractor, moved in a big outfit a mile west of Irma and has commenced grading on the east end. We understand that the new piece of road being completed this summer will cut off around eleven miles between Irma and Viking and will be one of the best roads in Alberta. The roadway has been widened to 100 feet and should be open for travel most of the winter.

School Fair—Saturday, Sept. 17. Sherbourne Coffin and Dan Matheson have gone to Delta, to finish harvesting.

Mr. and Mrs. E. H. Hobbs of Edmonton have been visiting with Mrs. Kobb's parents, Mr. and Mrs. Inklin of Irma.

School Fair—Saturday, Sept. 17. Mr. Sonoff and family have moved to the section house formerly occupied by Mr. Korluk.

Mrs. E. Simmons and infant son returned last Friday from the Wainwright hospital.

School Fair—Saturday, Sept. 17. Mrs. Parker, from Ontario, is visiting with her grand-daughter, Mrs. Sigurd Johnson.

Mr. and Mrs. Paul Lechelt who have been visiting at Irma for the past month have returned to Vancouver. Mr. Lechelt is a brother of Ed. Lechelt, of Irma.

WHEAT GRADES No. 1 HARD. The first car of wheat shipped for Carl Larson graded Government No. 1 hard, and was shipped out of Irma by W. Cole.

School Fair—Saturday, Sept. 17.

WANTED—About 200 good willow posts, H. W. Love, Irma, Alta.
